

Marin Interdistrict Transfers

College of Marin (COM) has partnered with a handful of Marin County school districts to assist with coordinating interdistrict transfers for children of COM employees.

Most school districts require children to attend school in the district of residence of their parents or legal guardian. Employees interested in having their child/children attend a school outside their district of residence must request an interdistrict transfer from their current school district. Next, they must contact one of the school districts below. Granting of interdistrict transfers is based on space and program availability.

Please go to <http://fiscal.marin.edu/benefits/marin-interdistrict-transfers> for additional information.

Dixie School District

Case-by-case based on space availability
